The stricken god was placed on the back of Pegasus and transported at once to the Jund hospital, where his mother, Venus, the goddess of love, is in constant attendance at his hedside, administering consolation, nectar and ambrosis.

The above probably would have been

Activities Among Memphis Negroes BY REV. T. O. FULLER.

A good friend said to me this week:
"I had what I regarded as an exceptional man in my employ. When his wife was sick I handed him a \$10 bill. When Christmas came I had his whole family come over for presents. I paid him good wages and paid him promptly lie never complained. But alas! He disappeared without notice or explanation." Ingrattude! May this never be repeated. Another one said: "I have a maid who is as loyal and faithful as can be. I give her every consideration. If she should become helpiess I would take care of her during her life. If I should die first I would remember her in my will. She has been so loyal to my children and family." I meution those as object lessons. Pardon me, please.

Too many people are teaching on what they thought they learned a generation ago, and employing methods that are hoary with age. Too many people are preaching what they do not know, but simply imagine. Peor children! Poor children! These helricoms of earlier days should be retired so that schoolroom and church may catch the spirit of the age.

Frivolous damage suits that serve only to annoy the public and take the time of the courts should be stopped. Courts are for the protection of society and to insure justice and equity, and not agencies of spite and spicen.

I talked to some men who were preparing to leave the city for work. I asked why. They said that they were worked two or three days by several firms and then "laid off" because the work had "caught up. They needed regular employment because of obligations, they said. There are two sides to these questions.
